

**CITY OF BURLINGTON
REQUEST FOR PROPOSALS**

Civil Engineering for City Hall Park Kiosk

Issued: August 28, 2023

Due: September 13, 2023

I. PROJECT BACKGROUND

City Hall Park has been used as a public space dating back to the 18th Century. While its name and configuration have changed over time, it has remained a significant public open space in the core of Burlington's downtown. In 2020 the City completed a historic reconstruction of the Park that prioritizes a healthy, functioning urban park, accessibility for all users in all seasons, and the enhancement of this historic space to meet the modern needs of the community. Today the park is activated year-round with concert series, festivals, and a summer and winter food and makers market that bring residents and tourists of all ages to enjoy the City's cultural offerings. Learn more about the reconstruction of City Hall Park at: <http://greatstreetsbtv.com/city-hall-park>. The design for this reconstructed park included a food/beverage kiosk that was not included in the construction for the budgetary reasons. The City is now moving forward with this component.

The kiosk will be custom designed for the City to include engaging net zero energy education, an "information station" with upcoming events and information on how to access important resources and services. The kiosk will be connected to water, wastewater and electrical infrastructure already in the park.

II. GENERAL INFORMATION & SCHEDULE

CEDO, in collaboration with multiple city departments including, Burlington Parks, Recreation & Waterfront, Business & Workforce Development, Burlington City Arts and Department of Public Works, is developing a small kiosk in City Hall Park which will be able to accommodate a range of uses, including food, beverage and retail services.

We are requesting proposals to provide engineering design services to make the required utility connections for the kiosk. Ideally the connections will take place before the end of the year or in early Spring 2024.

III. **SCOPE OF WORK**

This scope of work is for the design and permitting required to bring infrastructure connections from existing locations in the park to the kiosk location to allow for connection when the kiosk is delivered to the site.

Services included in RFP include:

- Coordination with Burlington Electric Department on best strategy for bringing electrical service to kiosk.
- Coordination with City of Burlington Water Resources Department on all aspects of water/wastewater infrastructure.
- A water resources design engineer shall provide a PE stamped design for the water service connection and sewer service connection at City Hall Park. Scope items at a minimum include:
 - Coordinate with the project team for the proposed city hall kiosk to complete water and sewer service design work.

- Coordinate with City Water Resources engineering team to ensure the project is in conformance with city standards and expectations.
 - Coordinate with the City Department that will be operating the kiosk's water utilities to ensure design and maintenance needs meet their expectations (such as winterization).
 - Water and sewer installation shall be in conformance with Burlington's standard details. See this link and the Exhibit C for reference: <https://www.burlingtonvt.gov/DPW/Connection-Requirements>
 - Review state Wastewater System and Potable Water Supply Permit requirements and complete permit application process for the project if it is required. Design flows are to be calculated by the design engineer and the City can provide a capacity to serve letter when they are complete.
 - The selected consultant shall confirm the existing water line in the park that is tapped for water service is adequate size and that the existing meter in the park is adequate size. Any changes to a water meter would need coordination with Metering Services.
 - The selected consultant shall provide construction oversight during the installation of buried water resources infrastructure.
 - The selected consultant shall provide record drawings at the end of construction.
 - The attached City Hall Park drawing is an excerpt of utilities present in the park. Additional record drawing and/or design drawing information will be shared if it is available and pertinent to the design.
- Development of design documents for bringing water, wastewater and electrical connections to the site of the Kiosk as needed for coordination with Kiosk design team and permitting. Design to minimize disturbance to existing hardscape and plantings and to include repair/replacement of existing hardscape and plantings.
 - Complete design and submission of State water/wastewater permit (if required).
 - Development of construction documents and specifications for bidding of work.
 - Construction Administration as needed.

The City shall deliver written notice to Consultant as soon as practicable of any non-appropriation, and Contract Consultant shall not be entitled to any payment or compensation of any kind for work performed after the City has delivered written notice of non-appropriation.

- 20. EXTENSION OF TIME:** The Consultant agrees to prosecute the work continuously and diligently and no charges or claims for damages shall be made by the Consultant for delays or hindrances, from any cause whatsoever, during the progress of any portion of services specified in the Contract. Such delays or hindrances, if any, may be compensated for by an extension of time for such reasonable period as the City may decide. Time extensions shall be granted by amendment, only for excusable delays, such as delays beyond the control of the Consultant and without the fault or negligence of the Consultant.
- 21. PUBLIC HEALTH EMERGENCY:**
- A. Compliance with Mandates and Guidance:** The Consultant is advised that public health emergencies—meaning public health emergencies, as declared by the City, the State of Vermont, or the Federal Government—may introduce significant uncertainty into the project. The Consultant shall be responsible for following this plan and ensuring that the project or site is stable and in a safe and maintainable condition.

 - i. Measures to manage risk and mitigate potential impacts to the health and safety of the public, the City and Consultant's workers;
 - ii. Explicit reference to any health and safety performance standards and mandates provided by the City, the State of Vermont, the Federal government, or other relevant governmental entities;

Upon stoppage of work, the City may allow Work to resume, at a time determined by the City, under this Contract if such failure to comply is adequately corrected. The City shall have sole discretion in determining if Consultant has adequately corrected its failure to comply with the above.

If Consultant's breach of Contract has not been cured within seven (7) days after notice to stop Work from the City, then City may terminate this Contract, at its discretion.

- D. City Liability Relating to Potential Delays: If a public health emergency is declared, the City will not be responsible for any delays related to the sequence of operations or any expenses or losses incurred as a result of any delays. Any delays related to a public health emergency will be excusable, but will not be compensable.

- 22. FORCE MAJEURE**: Neither Party to this Contract shall be liable to the other for any failure or delay of performance of any obligation under this Contract to the extent the failure or delay is caused by acts of God, public health emergencies, epidemics, acts of the public enemy, acts of superior governmental authority, weather conditions, riots, rebellion, sabotage, or any other

circumstances for which it is not responsible or which is not under its control (“Force Majeure”). To assert Force Majeure, the nonperforming party must prove that a) it made all reasonable efforts to remove, eliminate, or minimize the cause of delay or damage, b) diligently pursued performance of its obligations, c) substantially fulfilled all obligations that could be fulfilled, and d) timely notified the other part of the likelihood or actual occurrence of a Force Majeure event. If any such causes for delay are of such magnitude as to prevent the complete performance of the Contract within two (2) years of the originally scheduled completion date, either Party may by written notice request to amend or terminate the Contract. The suspension of any obligations under this section shall not cause the term of this Contract to be extended and shall not affect any rights accrued under this Contract prior to the occurrence of the Force Majeure. The Party giving notice of the Force Majeure shall also give notice of its cessation.

23. PAYMENT FOR EXTRA WORK, ADDITIONAL SERVICES OR CHANGES: The City may, in writing, and without invalidating the Contract, require changes resulting from revision or abandonment of work already performed by the Consultant or changes in the scope of work.

The value of such changes, to the extent not reflected in other payments to the Consultant, shall be incorporated in an amendment and be determined by mutual agreement. Any adjustments of this nature shall be executed under the appropriate fee established in the Contract, based on the adjusted quantity of work.

The City reserves the right to audit the records of the Consultant related to any extra work or additional services. Any such services rendered shall be subject, in all other respects, to the terms of the Contract. When changes are so ordered, no additional work shall be performed by the Consultant until a Contract amendment has been fully executed, unless written notice to proceed is issued by the City. Any claim for extension of time that may be necessitated as a result of extra work or additional services and changes shall be given consideration and evaluated insofar as it directly relates to the change.

24. FAILURE TO COMPLY WITH TIME SCHEDULE: If the City is dissatisfied because of slow progress or incompetence in the performance of the Work in accordance with the schedule for completion of the various aspects of construction, the City shall give the Consultant written notice in which the City shall specify in detail the cause of dissatisfaction. Should the Consultant fail or refuse to remedy the matters complained of within five days after the written notice is received by the Consultant, the City shall have the right to take control of the Work and either make good the deficiencies of the Consultant itself or direct the activities of the Consultant in doing so, employing such additional help as the City deems advisable. In such events, the City shall be entitled to collect from the Consultant any expenses in completing the Work. In addition, the City may withhold from the amount payable to the Consultant an amount approximately equal to any interest lost or charges incurred by the City for each calendar day that the Consultant is in default after the time of completion stipulated in the Contract Documents.

- 25. RETURN OF MATERIALS:** Consultant agrees that at the expiration or termination of this Contract, it shall return to City all materials provided to it during its engagement on behalf of City.

The Consultant agrees to allow the City access to all "instruments of professional service" at any time. The Consultant shall not copyright any material originating under the Contract without prior written approval of the City. No publications or publicity of the work, in part or in total, shall be made without the express written agreement of the City, except that Consultant may in general terms use previously developed instruments of professional service to describe its abilities for a project in promotional materials.
- 28. PROPRIETARY RIGHTS:** The Parties under the Contract hereby mutually agree that, if patentable discoveries or inventions should result from work performed by the Consultants under the Contract, all rights accruing from such discoveries or inventions shall be the sole property of the Consultant. The Consultant, however, agrees to and does hereby grant to the City an irrevocable, nonexclusive, non-transferable, and royalty-free license to the manufacture, use, and disposition of any discovery or invention that may be developed as a part of the Work under the Contract.
- 29. PUBLIC RECORDS:** The Consultant understands that any and all records related to and acquired by the City, whether electronic, paper, or otherwise recorded, are subject to the Vermont Public Records Act and that the determination of how those records must be handled is solely within the purview of City. The Consultant shall identify all records that it considers to be trade secrets as that term is defined by subsection 317(c)(9) of the Vermont Public Records Act and shall also identify all other records it considers to be exempt under the Act. It is not sufficient to merely state generally that the record is proprietary or a trade secret or is otherwise exempt. Particular records, pages or section which are believed to be exempt must be specifically identified as such and must be separated from other records with a convincing explanation and rationale sufficient to justify each exemption from release consistent with Section 317 of Title 1 of the Vermont Statutes Annotated.
- 30. RECORDS RETENTION AND ACCESS:** The Consultant agrees to retain, in its files, and to produce to the City—within the time periods requested—all books, documents, Electronic Data Media (EDM), accounting records, and other records produced or acquired by the

The Consultant further agrees that the City shall have access to all the above information for the purpose of review and audit during the Contract period and anytime within the aforementioned retention period. Copies of all of the above referenced information shall be provided to the City, if requested, in the format in which the records were obtained, created, or maintained, such that their original use and purpose can be achieved. If the termination is for the City's convenience, payment to the Consultant will be made promptly for the amount of any fees earned to the date of the notice of termination and costs of materials obtained in preparation for Work but not yet installed or delivered, less any payments previously made. However, if a notice of termination is given to a Consultant prior to completion of twenty (20) percent of the estimated services, as set forth in the approved Work Schedule and Progress Report, the Consultant will be reimbursed for that portion of any reasonable and necessary expenses incurred to date of the notice of termination that are in excess of the amount earned under its approved fee to the date of said termination. Such requests for reimbursement shall be supported with factual data and shall be subject to the City's approval. The Consultant shall make no claim for additional compensation against the City by reason of such termination.

B. Termination for Cause:

- i. **Breach:** Consultant shall be in default if Consultant fails in any manner to fully perform and carry out each and all conditions of this Contract, including, but not limited to, Consultant's failure to begin or to prosecute the Work in a timely manner

Consultant will not be in default for any excusable delays as provided in Sections 19-21.

The City may give Consultant written notice of such default. If Consultant does not cure such default or provide a plan to cure such default which is acceptable to the City within the time permitted by the City, then the City may terminate this contract for cause.
